Replace the paragraph beginning at line 18 of page 2 with the following:

182

Accordingly, it is an object of the present invention to provide a multilevel image data structure in which each level is expressed by the cells of a hierarchical structure of different levels by expressing one feature based on a multilevel image grid, and expressing a region representative color of each cell and a reliability with respect to the region representative color.

Replace the paragraph beginning at line 22 of page 7 with the following:

Two images I_1 and I_2 include first level image grids G_{1_1st} , G_{2_1st} , second level image grids G_{1_2nd} , G_{2_2nd} , and third level image grids G_{1_3rd} , G_{2_3rd} .
